

Ss Peter & Paul School

Our Mission:

• enriching education

- *Whaia te Matauranga hiranga ake*

• enthusiastic children

- *Akiaki Tamariki ngakau koropupū*

• Catholic values

- *Whaitikanga katorika*

MATHEMATICS AND STATISTICS

Students explore relationships in quantities, space, and data and learn to express these relationships in ways that help them to make sense of the world around them.

NUMBER AND ALGEBRA

- Use mental, written and other strategies to calculate and estimate
- Know when results of calculation and estimation are reasonable
- Repetitive patterns and relationships in numbers, shapes and measurements

We provide opportunities within our **Mathematics and Statistics** programme for students develop the ability to work with numbers in creatively, strategically and logically so they are able to use maths in their everyday lives.

GEOMETRY AND MEASUREMENT

- Use and recognise the properties of shapes
- Use appropriate units and instruments of measurement to calculate quantities

STATISTICS

- Design investigations, collect, interpret and present data
- Explore patterns and meaning in data
