TECHNOLOGY

Students learn to be innovative developers of products and systems and discerning consumers who will make a difference in the world

TECHNOLOGICAL PRACTICE

- There are principles and processes of design which need to be applied to the work created

We provide opportunities within our **Technology** programme for students to develop the understanding that technology involves the use of ideas, materials and resources in innovative ways to solve problems, create products, or satisfy needs and wants

TECHNOLOGICAL KNOWLEDGE

- Knowing how and why things work

NATURE OF TECHNOLOGY

- How technology impacts on society
